

GRADING - ACHIEVED

Planning - 6 points

1. Has been submitted w/ most aspects of project
2. Most of the software methods & workflows to be used

Timetable - 6 points

1. Has been submitted and planned reasonably and effectively
2. Clearly states specific deliverables to be submitted each milestone

Scope and Focus - 6 points

1. Approved by tutor
2. Final output is achievable within time-frame with content of project
3. Relevant and challenging
4. Clear pre visualisation of final outcome

Research and reference material - 6 points

1. Relevant research and reference has been submitted
2. Mostly processed for ease of use within project

Production Management - 6 points

1. Production updates have been documented on a near-daily basis
2. Dailies but doesn't reflect on processes

Feedback and Review - 6 points

1. Some reviews from tutor and classmates most days documenting feedback
2. Evidence submitted show work revised based on feedback received

Execution of Final Output - 15 points

1. At least 3 of proposed milestones in the brief have been met
2. Final output meets most of requirements in brief.

Final Presentation - 6 points

1. Final work presented
2. Includes **ideation, process, problems encountered/ solutions and final reflection.**
3. Covers mainly workflows utilized throughout project
4. Documentation is adequately clean, professional, demonstrates some design with use of colors and layout.
5. Few spelling and grammar mistakes evident

GRADING - EXCELLENT

Planning - 10 points

1. Has been submitted
2. Covers all aspects of project w/ breakdown of software, multiple methods and workflows
3. Choices are justified and documented
4. Extension work has been considered, time permitting
5. Communicated and presented brief plan requirements, critically analysed planning processed

Timetable - 10 points

1. Has been submitted
2. Time has been planned effectively
3. Clearly states specific deliverable to be submitted each milestone
4. Every day has been planned in detail with clear goals to be met.

Scope and Focus - 10 points

1. Pitch has been approved by tutor.
2. Pitched final output is achievable within time-frame with content of the project being both highly relevant and challenging.
3. Communicates highly focused and specific pre-visualization of what final outcome will look like.

Research and reference material - 10 points

1. High quality reference material pertaining to the intended final output has been sourced and processed for ease of use within project.
2. Contemporary industry best practice workflow has been researched and documented

Production Management - 10 points

1. Professionalism is displayed throughout entire specialization project.
2. Student has submitted all dailies and demonstrated ability to analysed problems and solutions, technical issues.
3. Excellent production management shown through day to day blogging, use of project management tools (such e.g Trello), adaptability, problem solving and documentation.

Feedback and Review - 10 points

1. Sought reviews and feedback from industry contacts / professionals working in a related area of specialization.
2. Evidence shown that feedback was documented from multiple sources and final outcome has been revised to match w/ justification given.

Execution of Final Output - 30 points

1. All milestones of brief have been met/ exceeded.
2. Final output exceeds all of requirements stated in brief.
3. Contemporary industry best practice workflow has been adhered to.
4. Aesthetic qualities of final output demonstrates advanced understanding of anatomy, animation principles and form/function where applicable.

Final Presentation - 10 points

1. Has been presented
2. Includes **ideation process, problems/solutions and final reflection**
3. Clear and compelling, conveys full range of workflows utilised throughout project.
4. Documentation is clean, professional and demonstrates a strong sense of design, understanding colors and layout.
5. Spelling and grammar is correct throughout.
